such office and on the persons connected therewith.

[48 FR 49210, Oct. 25, 1983]

CLASSIFICATION REQUESTS

§ 27.12 Classification request for each lot of cotton.

For each lot or mark of cotton of which the applicant desires separate classification and certification, the applicant shall make a separate written request in a form prescribed or supplied by the Cotton Division for that purpose.

[48 FR 49210, Oct. 25, 1983]

§ 27.13 Micronaire determination request incidental to classification request.

The classification request may include a request for Micronaire determination.

§ 27.14 Filing of classification and Micronaire determination requests.

Requests for classification shall be filed with the Marketing Services Office serving the location at which the cotton is stored. Requests for classification shall be filed within 30 days after sampling and before classification of the samples. The applicant may file a request for a review of classification as part of the request for classification. The applicant may file a request for Micronaire determination as part of the request for classification or may file a request for such determination, in a form prescribed by the Cotton Division within 7 business days following the date of the first certification of the cotton involved, provided this service has not been previously performed on such cotton, and the request is made prior to delivery of the cotton on a basis grade contract. Requests for Micronaire determinations may also be filed as provided in §§ 27.62 and 27.63.

[48 FR 49210, Oct. 25, 1983]

§ 27.15 Withdrawal or rejection of classification or Micronaire determination requests.

Any request for classification or for Micronaire determination may be withdrawn by the applicant at any time before the classification or

7 CFR Ch. I (1-1-02 Edition)

Micronaire determination of the cotton covered thereby, subject to the payment of such fees, if any, as may be prescribed under §§ 27.80 to 27.92. Any request for classification or for Micronaire determination may be rejected for noncompliance with the act or this subpart.

INSPECTION AND SAMPLES

§ 27.16 Inspection; weighing; samples; supervision.

The inspection, weighing, and sampling of cotton for which classification is desired and the preparation and delivery of samples to the Marketing Services Office shall be (a) under the supervision of a supervisor of cotton inspection, or (b) by or under the direction of an exchange inspection agency and subject to the supervision of a supervisor of cotton inspection.

[48 FR 49210, Oct. 25, 1983]

§ 27.18 Persons not to be employed for inspection or sampling.

No person shall, after notice to the interested parties, be employed in any way in connection with any phase of the inspection and sampling of cotton or the preparation of the samples thereof, for the purposes of classification under this subpart, who for good cause is disapproved by the Director.

§ 27.20 Drawing and handling of samples of cotton; inspection of bales.

One sample shall be drawn from the top side of each bale and one from the bottom side. Each such sample shall weigh not less than 5 ounces, the two samples from each bale to weigh together not less than 10 ounces. The bale shall be inspected and any condition not fully indicated by the samples shall be explained by the supervisor of cotton inspection or exchange inspection agency in a written memorandum, which shall accompany the samples to the Marketing Services Office. Samples shall not be dressed or trimmed and shall be carefully handled in such manner as not to cause loss of leaf, sand, or other material, or otherwise change their representative character. Any

§ 27.31

sample which does not meet the requirements of this section may be rejected by the supervisor of cotton inspection or the Area Director.

[48 FR 49210, Oct. 25, 1983]

§ 27.21 Preparation of samples of cotton.

The samples from each bale shall be prepared as specified in this section. The sample from the top side and the sample from the bottom side shall each be broken into two parts. One part of the sample from the top side shall be placed with a part of the sample from the bottom side, making two sets of samples from each bale. One of such sets shall weigh as nearly as possible 6 ounces, equally divided between the two parts thereof representing the two sides of the bale. There shall be placed in each such set of samples between the two sides thereof a coupon showing the number of the tag attached to the bale from which such samples were drawn. The 6-ounce set of samples from each bale shall be called the original and the other set the duplicate.

§ 27.22 Wrapping and marking of samples of cotton.

The original sets of samples of the bales constituting a lot or mark to be classified separately shall be inclosed in one or more wrappers or containers, as the case may require. The wrappers or containers of original samples shall be so labeled or marked, or both, as to show that they contain original samples, together with the lot number, if any, the marks, and the number of bales, and such other information as may be necessary in accordance with the instructions of the Area Director of the Marketing Services Office to which the samples are to be delivered.

[48 FR 49210, Oct. 25, 1983]

§ 27.23 Duplicate sets of samples of cotton.

The duplicate sets of samples shall be inclosed in wrappers or containers separate and apart from the original sets in the manner prescribed or original samples in the foregoing section, except that the wrappers or containers shall be labeled or marked, or both, so as to show that they contain duplicate

samples and shall be delivered to the person requesting the classification of the cotton.

§ 27.24 Delivery of samples of cotton.

The original sample from each bale to be classified shall be delivered to the Marketing Services Office with which the classification request was filed, at its classification room. If there is no Marketing Services Office at the point where the cotton is sampled, the supervisor of cotton inspection or the exchange inspection agency shall forward the samples to the proper Marketing Services Office. No samples covered by pending classification requests which are ready for delivery as provided for herein shall be withheld from such delivery except as authorized in writing by the Area Director or the Director.

[48 FR 49210, Oct. 25, 1983]

§ 27.25 Additional samples of cotton; drawing.

In addition to the samples hereinbefore prescribed, separate samples, if desired, may be drawn and furnished to the owner of the cotton.

§ 27.28 Disposition of samples.

Samples submitted to a Marketing Services Office shall become the property of the Department and shall be disposed of in accordance with the property regulations of Department when no longer needed for classification or Micronaire determinations.

[48 FR 49211, Oct. 25, 1983]

CLASSIFICATION AND MICRONAIRE DETERMINATIONS

§ 27.31 Classification of Cotton.

For the purposes of subsection 15b (f) of the Act, classification of cotton is the determination of the quality of a sample in accordance with the Official Cotton Standards of the United States for the color grade and the leaf grade of American upland cotton, the length of staple, and fiber property measurements such as micronaire. High Volume Instruments will determine all fiber property measurements except leaf grade and extraneous matter. High Volume Instrument colormeter measurements will be used for determining
